

Brief Bio-data of *Dr Gaurav Agarwal*

Dr Gaurav Agarwal, the current president of Breast Surgery International (BSI), is a Professor of Endocrine & Breast Surgery; the Chief Medical Superintendent at SGPGIMS, Lucknow, India, and convener of the SGPGI Breast Health Program. His innovative approach has made high-quality, holistic, yet low-cost breast cancer treatment available at SGPGIMS over 3 decades, where he has led the breast MDT. He has pioneered sentinel lymph node studies and oncoplastic breast surgery in India. He has been organizing the popular “SGPGI Breast Courses” over 2 decades, and has trained numerous fellows. He has been part of Ministry of Health Govt of India technical committee which drafted the national clinical practice guidelines for breast cancer management; and has contributed to the global breast oncology and surgery practices guidelines formulation too. His **research interests** lie in breast oncogenesis and outcomes, where he has numerous research grants. He has **published >210 scientific papers**, with >6100 citations and **h-score of 41** on GoogleScholar. He has served on editorial board of numerous high-impact journals including World journal of Surgery. Professor Agarwal enjoys a reputation of being a key opinion leader in Breast surgery and oncology in India. He has delivered more than 240 invited talks and orations, and has received numerous awards. Prof Agarwal is the president (2019-2021) of Breast Surgery International (BSI), which he served as secretary too during 2005-2011. He will preside over the BSI conference at world congress of surgery 2022. He has, and has worked relentlessly to make BSI a truly international organization representing breast surgeons from across the globe.
